

Classificazione in base ai lati

**TRIANGOLO
SCALENO**

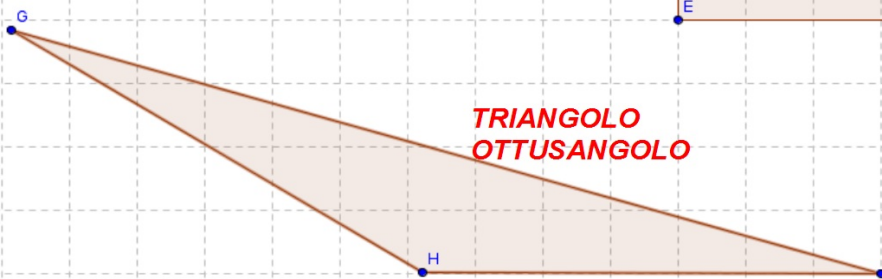

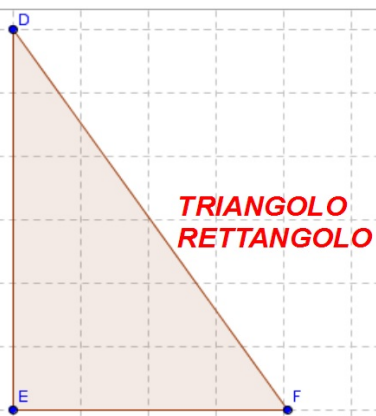

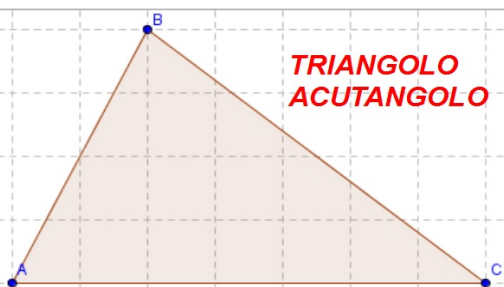

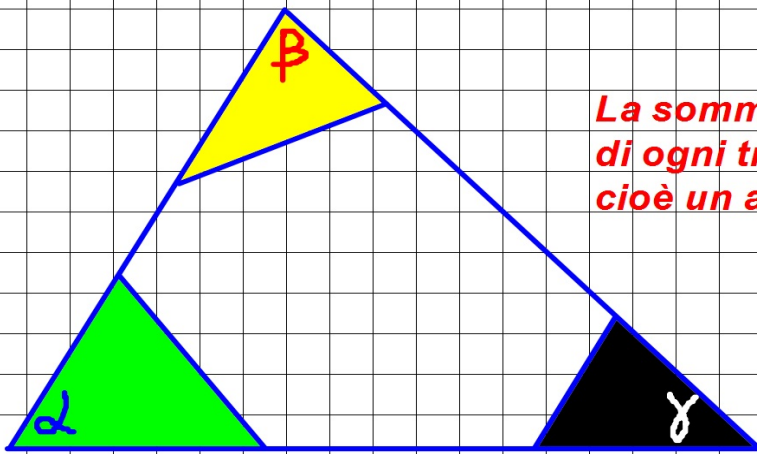

**TRIANGOLO
ISOSCELE**

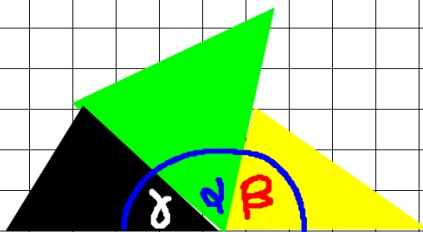

**TRIANGOLO
EQUILATERO**

Classificazione in base agli angoli

La somma degli angoli interni di ogni triangolo è 180° ,
cioè un angolo piatto.

$$\hat{\alpha} + \hat{\beta} + \hat{\gamma} = 180^\circ$$

$$\hat{\alpha} = 60^\circ \quad \hat{\beta} = 76^\circ \quad \hat{\gamma} = 44^\circ$$
